THE UNDERGROUND AUTHORITY

Grouting Solutions for the OIL & GAS PIPELINE INDUSTRY

Cementitious | Chemical | Polymer-based Geotechnical Solutions

Pressure Grouting • Cellular Grouting • Compaction Grouting

superiorgrouting.com

ABANDONMENT GROUTING

- Highly Flowable 2000 Ft plus
- Custom Mix Designs for Sanded Grouts
- Custom Mix Designs for Cellular Grouts
- Zero Excavation
- Cost Effective
- Versatile & Fast

Superior Grouting specializes in Line Grouting projects of all types. Long distance pushes, minimal injection points where custom mix designs are required are our specialty.

GEOTECHNICAL ENGINEERING & APPLICATION EXPERTISE

Serving Texas and the surrounding states for more than 35 years - Superior Grouting is the premier provider of pressure, cellular and compaction grouting geotechnical solutions for pipeline grouting applications. We have earned the reputation as the "go-to" for demanding applications where safety, quality, responsiveness, and reliability are an absolute necessity.

OIL & GAS PIPELINE INDUSTRY

With more than 2.6 million miles of oil and gas pipeline spanning America, maintenance is a critical necessity to ensure ground stability and surface safety. Superior Grouting works with industry firms to provide geotechnical and remedial grouting services to the Oil & Gas Pipeline Industry with the most common being Pressure Grouting. Pressure Grouting is the generic name applied to several applications requiring the pumping and injection of any number of variable cementitious grout mixtures.

Excavation and removal of underground pipes can be extremely expensive but abandoned pipes often cannot simply be left as is. In fact, in certain cases the law now requires that any abandoned pipe be removed or adequately grouted so that it will not collapse in the future and create voids that could cause settlement of the ground surface, roadways or overlaying structure.

PRESSURE GROUTING SOLUTIONS

BENEFITS

Pressure Grouting can help reduce or eliminate several problems caused by the presence of abandoned pipes:

- Migration of groundwater and hazardous fluids into the pipe
- Build-up of explosive gases in the pipe
- Collapse of the pipe, leading to settlement of the overlaying structures

Abandonment Grouting Solutions

Superior Grouting specializes in Line Grouting projects of all types. Long distance pushes, minimal injection points where custom mix designs are required are our specialty.

Benefits realized when utilizing Superior Pressure Grouting solutions:

- Highly Flowable 2000 Ft plus
- Custom Mix Designs for Sanded Grouts
- Custom Mix Designs for Cellular Grouts
- Zero Excavation
- Cost Effective
- Versatile & Fast

The Superior Grouting Advantage

- Leader in Geotechnical Remedial Services
- Rapid-Response Customer Service Across Texas
- Pressure – Compaction – Polyurethane Grouting Application Expertise
- Cementitious – Chemical – Cellular – Poly Materials Solutions

SAFETY QUALIFICATIONS

- **EMR RATING (2019) .90 (2020) .89 (2021) .91**
- **Safe Land USA**
- **Member of the Houston Area Safety Council**
- **TWIC Cards**

COMPLIANCE COMPANIES

Who We Are

Superior Grouting is a specialty grouting contractor with capabilities including cellular grouting, slurry grouting, compaction grouting, chemical grouting as well as polyurethane grouting for oil & gas pipeline operators.

Our goal is to provide skilled technical expertise and customized innovative solutions to meet the most complex geotechnical engineering challenges. Our expertise has allowed us to build a loyal customer base in the commercial and government sectors. We aim to provide innovative and efficient solutions for all your specialty grouting needs.

Superior Grouting Services has been in business since 1983. We're based in Houston, Texas, and serve customers on the Texas and Louisiana Gulf Coast, and beyond.

To find out how we can meet your specific requirements, call **281.894.4175** or visit us at **superiorgrouting.com**
